

U.S. Application No. 10/566,263

REMARKS

Applicants cancel claims 1-163 without prejudice or disclaimer. Claims 164-182 are pending. Claims 181-182 are new in the application. Claim 164 is amended by adding the term "biocompatible" and a phrase that "the biocompatible gel is suitable for *in vivo* use" for clarity. New claims and amendments are supported by the specification. Therefore no new matter has been added. A first office action on the merits is awaited.

Respectfully submitted,

April 28, 2006
